THE POPULAR LOAN.

Northern Pacific Bonds!!

$6,000,000

Of these bonds were sold in London, and over

$1,500,000

Sold in the United States during the month of January.

These Bonds have sold, during the past year to an extent unequalled by those of any other Corporation, and they have now taken their place among the solid and favorite securities of the country.

This is because the Bonds are based upon the amplest security, being a FIRST AND ONLY MORTGAGE "upon the railroad, franchises, and all the lands and property, and rights of property, real and personal, now in possession by the Northern Pacific Railroad Company, or which the said Company may hereafter acquire." The Land Grant of the Northern Pacific Railroad will average over 23,000 acres to each mile of road. This land is capable of producing in abundance all the Fruits, Vegetables and cereals of the Eastern or Middle States.

THE VALUE OF LAND GRANTS.

The average price at which twenty-six land grant railroads have thus far sold their lands is $7 04 per acre—the highest average of any grant being $13 98, and the lowest $3 07. With few exceptions, the average selling price has increased from year to year. The lands of the Northern Pacific Road are admitted, by all who have seen them, to be better and more saleable than those of most other grants, but sold at the general average of 7 04 per acre, they will yield more than $161,000 per mile of road—more than three times the possible cost of construction and equipment, or, at the lowest average of any grant (3 07) they will produce more than $70,000 per mile, which is $20,000 per mile more than the company are allowed to issue bonds.

TRAFFIC ON PACIFIC RAILROADS

As officially reported, the gross earnings of the present Pacific Railroad (Union and Central) for 1871, the second year of through business (December earnings estimated) reach Seventeen Millions and a Quarter. Of this 65 per cent. is from Local Business, and, it is stated, fully 55 per cent. or nearly Nine and a Half Millions, are net over operating expenses.

An equal traffic on the Northern Pacific Road will pay a dividend of 9½ per cent on its total cost. With its great and unquestioned advantages in distance grades, climate, and tributary fertile country, the Northern Pacific is assured of a vast and profitable business from the outset, with a large increase for the future.

These facts regarding Pacific Railroad earnings, and the market value of Railroad Lands, as shown by actual sales to settlers, show the unquestioned security of Northern Pacific Railroad Bonds.

CONSTRUCTION OF THE ROAD.

The road is completed to the eastern boundary of Dakota, the Red River of the North, a distance of 255 miles. On the Pacific coast, 65 miles are under construction, the greater part of which is completed,—including purchased lines, the Northern Pacific Company have now nearly 600 miles of running road. Contracts are let for the construction of 635 miles more, to be finished before the close of 1872.

WE WOULD RECOMMEND THE NORTHERN PACIFIC SEVEN-THIRTY GOLD BOND AS ONE OF THE BEST AND SAFEST SECURITIES NOW OFFERED TO THE PUBLIC

In this security are combined the high credit of a first-class Railroad Bond, with the solidity and safety of a Real Estate Mortgage on Land worth more than twice the amount loaned.

These Bonds are payable in 1900—bear 7 3-10 per cent interest in Gold, payable first of July and January, are free of U S Tax—are receivable at 10 per cent premium for the Company's Lands at the lowest cash price, and are issued in the following denominations: Coupon bonds, $100, $500 and $1000, Registered bonds, $100, $500, and $1,000, $5 000 and $10,000.

The proceeds of all sales of Land are required to be devoted by the Trustees of the bondholders, (Messrs Jay Cooke and J Edgar Thompson) as a sinking Fund to the purchase and cancellation of the first mortgage bonds.

EXCHANGING 5-20s. In view of the ability and fixed policy of the Government to call in its 5 20s and substitute a low interest bond—$140,000,000 having been called in for cancellation since September 1st—many holders of 5-20s are exchanging them for Northern Pacifics thus adding to their principal the present premium on Government bonds, and increasing their yearly interest income nearly one-third.

All marketable stocks and bonds, will be received at current prices in exchange for Northern Pacific Seven-Thirties without expense to the investor.

For further particulars concerning this Bond, or purchase of the same apply to the undersigned.

Prof. P. E. MARTIN,
Having returned from Boston, and taken charge of the Custom Department at S. B. FIFIELD'S well known Clothing House,
6 and 7 Kenduskeag Block,
would return thanks to his old friends for past favors, and flatters himself that after three years experience in a first class Boston Custom establishment, that he can get up as stylish a Garment as can be obtained in that city at a considerably lower figure, and thinks that if those who have been in the habit of patronizing Boston establishments for their custom work will give him a call, that he can suit them equally well, as regards style and make up of Garments, and considerably better in regard to price, having already done so in several cases.

THE
CHICAGO, DANVILLE & VINCENNES
RAILROAD
IS A FINISHED LINE

Running through one of the richest portions of Illinois, and connecting Chicago by the shortest route with the celebrated Block Coal fields of Indiana, and by way of Evansville and Nashville with the entire South. Its mortgage debt is $2,500,000, or about $18,500 to the mile. Although the road is but just opened, it is already earning, after all operating expenses are paid,

More than the Entire Interest

on all its bonds. While railroad bonds may be plenty, those upon finished and paying lines and for so small a sum to the mile, are seldom in the market.

We do not hesitate to recommend these Bonds as unusually safe. They are attended with none of the uncertainties of projected enterprises, and the prompt payment of the interest, and the final payment of the principal, are as certain as any future financial event.

The Bonds are for $1,000 each, have forty years to run, and bear interest at the rate of 7 per cent per annum, payable on the first of April and October, both principal and interest being payable in gold in New York.

We are selling them daily to the most careful investors.

WRECK OF THE SCHOONER 'WHITE SWAN'—SUFFERINGS OF THE CREW.—Advices from Vineyard Haven, March 7, state that the Sch. White Swan, from Calais, Me., for New York, with lumber, after dragging anchors, went ashore on the reef near Cape Poge Light, Tuesday morning last, 5th instant.—In a few hours she filled with water and heeled off to the windward. A very heavy sea breaking on her decks, dashed the spray all over her, which soon froze and incased her in solid ice more than a foot thick. Without fire, the crew were driven from below to the rigging. At the time of filling a signal of distress was raised, and about noon on Tuesday, six men in a surf-boat left Edgartown to afford relief, but they found it impossible to reach the vessel on account of the roughness of the sea and the violent gale of wind, consequently they landed on Cape Poge, near the light. Next they procured a life boat at Chappaquiddick, which they brought near the wreck, but found it impossible to get through the ice and breakers to the vessel. They remained at the lighthouse over night, hoping to be able to relieve the sufferers in the morning. Day appeared, but the gale had not abated and the cold was intense. Still seeing persons moving on the wreck, and not being able to render any relief with the boats they had, they went six or eight miles in the cold to Edgartown and informed Capt. B. C. Cromwell, of the steamer Martha's Vineyard, of the situation of the distressed crew. He immediately, with all possible despatch, got up steam, and starting for the wreck he took a surf-boat and a number of extra men; passing through thick ice in a violent storm of wind, he reached the windward of the wreck about 9 o'clock, Wednesday morning, and laying to the steamer he launched the surf-boat in the charge of trustworthy seamen, who proceeded on the angry waves to the vessel and took off the almost famished and badly, though not fatally, frozen crew. Then passing over the reef to the leeward of the wreck they met the steamer, which had passed round to take the boat and rescued crew on board. The sufferers were so disabled by frost and cold they had to be raised by means of ropes from the boat to the steamer. On board they were immediately supplied with warm drinks and nourishing food. In short, the officers and crew of the steamer did all in their power to make the rescued as comfortable as possible, who were transferred to the care of the good people of Edgartown.—Had it not been for the prompt, skillful and energetic movement of Capt. Cromwell, the crew of the schooner must have perished, for the faithful and philanthropic efforts of the men that first started for the wreck proved ineffectual, owing to the accumulation of ice and the violence of the wind producing a very heavy sea. Their names should be known to the public, and their deeds of daring should be timely rewarded by the friends of suffering humanity. The White Swan was a good vessel of 141 tons, and had on board a cargo of lumber. If the weather moderates the cargo may be saved, but it is doubtful if the vessel is worth repairing. Her crew is composed of the following named persons—George E. Hinds, master, John Coleman, mate, Ira Haa, Henry Ross and Albert Preston, all of Calais; and Edward Short, of Eastport. The following are the names of the men who saved the shipwrecked crew—Daniel Fisher, 2d, Seth Marchant, 2d, Harvey Wilbur, George Fisher, Richard J. Marchant and William F. Fisher. All the men have their feet frozen, and some of them are slightly frozen in the face and hands. They have been cared for by the Marine Hospital physician, Dr Pierce and C. B. Marchant, Esq., Collector of Edgartown. Several members of the boat's crew of rescuers were frostbitten in the face and hands, and also some of the deck hands on the steamboat froze their fingers and ears.

JOURNALISM IN THE UNITED STATES.—The New York Post gathers from some manuscript tables made up in the Census Bureau in Washington out of reports of the ninth census, not yet published, some interesting statistics illustrating the present status of journalism. The aggregate of the newspapers and periodicals published in this country is 5845, of which 574 are daily, 107 tri weekly, 115 semi-weekly, 4270 weekly, 96 semi-monthly, 621 monthly, 13 bi-monthly and 49 quarterly. The average is about one to every 6500 of the population. Of the various interests represented, politics engross 4328 of these papers—the estimate, however, including a great number of papers devoted more to intelligence and the promotion of local interests than to general politics. There are 207 technical and professional journals, 502 "illustrated literary and miscellaneous," and 20 especially devoted to nationality. The commercial and financial interests have 122 papers, 8 of them daily, agriculture and horticulture have 93, and benevolent and secret societies 81. There are 407 representatives of the religious press; to 6 "sporting," a hopeful and significant contrast. The question of relative circulation, which is most important, is announced in the following tabular exhibit. It will be noticed that the average of the sporting papers is the highest in the list

	No	Circulation	Average

THURSDAY, MARCH 14 1872

OUR VICTORY IN NEW HAMPSHIRE.

The victory won in New Hampshire on Tuesday has far [illegible] our most sanguine anticipations. After one of the most exciting and [illegible] in the history of that State the Republicans have not only [illegible] reversed [illegible] the adverse record [illegible] completely cleared the [illegible] Council and Legislature [illegible] ties. The desperate [illegible] ocrats clung [illegible] has hardly been [illegible] and the Republicans [illegible] the enemy in front and the [illegible] who profess allegiance to the [illegible] party. The personal [illegible] publican Senators has been [illegible] hands of the Democracy [illegible] that the two edged sword [illegible] of the Granite State [illegible] rect by the side of her Republican [illegible]

We had hoped at least to [illegible] tion of a Democratic Governor [illegible] turns give as a triumph so [illegible] New Hampshire is no longer a doubtful State — With a Republican majority [illegible] 1500 and 2000, and the control of the [illegible] Legislature, the mistakes of last [illegible] are nobly avenged and New England [illegible] stand united under the flag of [illegible] This first triumph of [illegible] has sounded the key note [illegible] to come, and as an emphatic end [illegible] administration, it expresses the popular demand for the re election of President Grant. The following extracts from [illegible] changes show the conclusions [illegible] drawn from the result of this [illegible]

The Boston Advertiser comments on the victory as follows —

At the very moment when the Republicans of New Hampshire were using every means in their power to keep the State from lapsing permanently into Democratic misrule, they were overwhelmed with the speeches of Republican Senators, which were thrown in their faces from Hillsborough to the Canada line. The local and State Committees and the active workers in the towns regarded the intrusion with mingled sorrow and indignation, but did not relax their effort, as the canvass advanced they more and more identified their cause with that of the administration and scorned to seek any advantage by begging absolution for its faults. The verdict of New Hampshire is for the administration and against those who oppose it and every New England State will give the [illegible] when the time comes.

The Journal says it was a square fight on national grounds and thus sums up the significance of this victory —

It would be hard to over estimate the good results of this signal victory. It ensures a similar triumph in Connecticut. It explodes before the whole country, that strange phantasm of disaffection among the Republican masses. It sounds the doom of the Democracy for the impending campaign, whether they act separately or merge [illegible] the odds and ends of a factious opposition. Its influence upon the Republican [illegible] Convention may be tranquilly awaited [illegible] is far more important to know [illegible] be an influence wholly tributary [illegible] did progress which this nation has [illegible] ing ever since it buried slavery [illegible] in the same grave, and rose to the [illegible] but of equal rights.

The Post keeps its temper [illegible] — The inclement weather compels [illegible] stay in the coop this morning [illegible] tient birds. It tries to be com[illegible] disguises its chagrin rather [illegible] following remarks —

Taken from every [illegible] might have been [illegible] doubt some time [illegible] the Administration [illegible] out its defeat of last year [illegible] United States Senato[illegible] for it to [illegible] employment of every [illegible] The undismayed Democracy [illegible] enemy another day.

It does not say how much more [illegible] those future struggles are render[illegible] crushing defeat but the country [illegible] electrified by this first salute [illegible] and the tide of Republican [illegible] on from New Hampshire to [illegible] from March to November.

ANOTHER SPECIAL SLANDER [illegible] When we called attention [illegible] issue, to the lying dispatch of a [illegible] nt of the Boston Globe trad[illegible] acter of the City Treas[illegible] finances [illegible] of the city [illegible] the duplication of the [illegible] ston Herald of the same date [illegible] of the dispatch [illegible] and both a[illegible] understood [illegible] nated from attaches of the Co[illegible] the correspondent of the Boston Herald [illegible] be in one of the staff of the [illegible] the Herald correspondent [illegible] firmed of the prospect of [illegible] count sent the following cont[illegible] by which we [illegible] tucked [illegible] a long dispatch —

The assertion regarding [illegible] treasury has been proved [illegible]

Our contemporary is work[illegible] through its agents to pe[illegible] me of wealth living among [illegible] their capital at home instead [illegible] abroad [illegible] promised in its [illegible] we trust its efforts will [illegible] community.

The N Y Tribune [illegible] be correctly reported [illegible] Committee on Commerce have agreed to support a bill authorizing foreign built steamships to be registered [illegible] we may be quite sure that no such proviso will ever be enacted into law. It [illegible] practical surrender not only [illegible] but of the better part of [illegible] also to Europe. That [illegible] houses at once American [illegible] is composed in part [illegible] who have and of [illegible] who have not, been [illegible] try, is well known. These by [illegible] tering their foreign built steamships [illegible] ican, may not only run [illegible] to all foreign ports but from New York to Norfolk, Savannah New Orleans and Galveston. If this is to be legalized we may at once abandon the hope of ever [illegible] ing at the launch of an American steamship [illegible] But it is not possible [illegible] will as sent to this."

THE LOGIC OF FIGURES. A good exhibit of the work of President Grant's three years administration, is made in the [illegible] ures.

Reduction of the public debt $290,049 762 03. Reduction of the burdens of taxation $80,000,000 per annum. Collected in the course of three years, $1 [illegible] Expended $1,000 000 000, making an aggregate of $2,200,000 000. Of this vast sum less than one-fifteenth of one per cent. has been lost.

What does this mean? Here is the New York World sounding the praises of the Springfield Republican and the Chicago Tribune, hailing them as worthy co-workers in the combined opposition movement against Grant and the Republican party. Surely the World must have mistaken "independence" for a very poor quality of partisanship.

The Atlanta (Ga.) New Era "hears a rumor" that the Hon. A H Stephens is anxious to quit journalism, but hopes it may prove false, for the reason that Mr Stephens "represents the Democratic faith unalloyed with 'departures' and unobscured by even the acceptance of accomplished changes in the Constitution."

A POLITICAL WEATHER VANE.

The N Y Herald is justly regarded as devoid of political principle or influence, ever ready to shout on the winning side and never hesitating to wheel square about whenever its own policy dictates. But while it is a political weather-cock, its attitude in a contest where the lines are squarely drawn is of some significance as indicating the direction of the popular breeze for which it is constantly striving to trim its sails. It has been digesting the results of the recent local elections and holds forth as follows —

From the returns of the latest of these local elections before us we find that the Republicans have astonished themselves by their successes in Binghampton, Rochester, Elmira, Auburn, Cohoes, Poughkeepsie, Utica and other places in different parts of the State — Here and there we have a little Democratic success, but the general run of these elections indicates a lively cohesion of the Republicans and that while they are waxing more [illegible] and stronger the Democrats are getting weaker and more apathetic as the passive Democracy. The scattering local elections in Maine, Illinois and other States indicate the same general pressure from the reviving tide of [illegible] opinion in favor of the man of 1868 as the man for 1872. But the most remarkable fact [illegible] disclosed in these elections is the marked [illegible] weakness of the anti Grant Republicans as a disturbing element. Half a dozen or [illegible] disaffected Republican bolters [illegible] in the national Senate have [illegible] past been sapping and mining [illegible] ammunition for the purpose of [illegible] up the administration. And what with their broadsides [illegible] shot and shell on the [illegible] reform the one term principle [illegible] abuses and the sales of second hand muskets to speculators, who found a ready market for their wares in France, and what with the co-operation [illegible] of the warlike Greeley with these other malcontents in their tremendous efforts to break down General Grant [illegible] had expected some mischief to the Republican party fighting under his standard in these local elections.

It appears however that the fuss and fury [illegible] mitigation of the ponderous Sumner, the sprightly Schurz and gloomy Trumbull, have been wasted on the wind or [illegible] their desperate efforts to upset Grant have only served to call out the people to his [illegible] there anything, new or strange [illegible] uprising of this [illegible] Unjust accusations and unwarranted abuse against any man are the forte [illegible] methods of bringing [illegible] people to his behalf. It was so [illegible] of vulgar and scandalous personal warfare that [illegible] his popularity, as [illegible] battle of New Orleans, and [illegible] outrageous personal injustice of the opponents of [illegible] in their war upon Lincoln's [illegible] instead of weakening him, strengthened [illegible] cause among the honest masses of the people who have no personal revenges to satisfy and no political axes to grind. In the same way, we infer, the war of the anti Grant Republicans upon the present administration has returned to plague the inventors.

THE FINANCIAL CONDITION OF PORTLAND. Mayor Kingsbury of Portland in his inaugural address, gives a tabulated statement of the condition of the finances as reported by the City Treasurer from which we gather the following summary —

Funded debt March 31 1871,	$[illegible]8,200 00
Bond authorized for expenditures [illegible]	1[illegible] 00
	$3,156 200 00

The Mayor says [illegible] have called the debt proper of the city [illegible] liabilities [illegible] simply to distinguish them from those for which we have ample [illegible] But this debt is [illegible] taxables [illegible]

[illegible] Did Ir Mr Garvey's testimony slowly struggling to the light [illegible] cloud of objections which [illegible] have thrown around it. [illegible] of the manner in which [illegible] of $3 000 for "work on a new Court House" is a complete [illegible] of the history of the Ring frauds — [illegible] to be more exact, it would have been a [illegible] of the violence he was [illegible] all been admitted. Still he [illegible] show us how the fraud was done. Mr Garvey [illegible] begin with, had a charge against the county of something over [illegible] and we may be sure that he charged [illegible] possible prices for everything [illegible] charges against other people [illegible] was to pay, and he had [illegible] on other men's account, and [illegible] to pay that also. Before he [illegible] before Mr E A Wood [illegible] large and the date he must [illegible] the imaginary work. Then Mr [illegible] with his addition. "There [illegible] he said "$126 000 that I was [illegible] bills, there was [illegible] Tweed at Albany [illegible] Legislature [illegible] $60 000 for [illegible] expenses [illegible] for Wm M Tweed [illegible] amounts, $60 000 for a [illegible] 000 for [illegible] done in Norwalk for M W Tweed, [illegible] 000 for plastering two [illegible] Walter Roche in Fifty ninth street, [illegible] pay my political assessment [illegible] campaign. This con[illegible] excess [illegible] of the bill referred [illegible] that Mr Garvey presented several bills on the same day, and we suppose that for the sake of appearance, he [illegible] around!

POLITICAL AND PERSONAL

[illegible] does not grow apace. It talks [illegible] on the hard shell appetite. Yet [illegible] other way of reaching the [illegible] chestnuts the Democratic monkey [illegible] willing to use the paws of Schurz, and his [illegible] to rake them in.

The St Louis Democrat is showing up the record of Senator Schurz in anything but an enviable light. By his aggressive course and assumption of superior virtue the Senator has invited the investigation and cannot claim [illegible] by the same standard [illegible] would fain apply to others.

[illegible] Alfred [illegible] having published a list [illegible] holding office under the present Administration the National Republican asks him to compile another of the editors [illegible] opposition who have asked for offices and been refused them.

A Democratic editor out West having expressed a willingness to vote for old "Cloven-foot" himself if thereby he may beat Grant his Republican neighbor retorts — "We have no doubt of it. Lovers of 'tanglefoot' ought not to hesitate to vote for 'Cloven-foot,' the head of the family.

RHODE ISLAND POLITICS are getting decidedly exciting. According to the Providence Journal there is a deep laid scheme to control the action of the Republican Convention which meets on Thursday, without regard to the wishes of the party at large, and to place it in opposition to the re-nomination of Gen Grant and in favor of the proposed mongrel Cincinnati movement. The Journal charges that money is freely used to purchase and elect delegates who can be manipulated by the leaders in this movement, and that other iniquitous measures are being used to defeat the fair expression of the Republican voters of the State. "Forewarned is fore-armed," and the Republicans knowing the tactics of these tricksters ought to be able to circumvent them. There is no doubt that the Republican party in Rhode Island is largely in favor of the re-nomination of President Grant, and its voice ought not to be suppressed or weakened by the evil schemes of those who, under the guise of Republicanism, are aiming to betray the party to its foes.

Cassius M Clay will head, it is said, the Kentucky delegation to the Cincinnati Convention, and ex-Senator Ross will be the head and front of the Kansas dissatisfied.

The Cause and Cure of Consumption

The primary cause of Consumption is derangement of the digestive organs. This derangement produces deficient nutrition and assimilation. By assimilation I mean that process by which the nutriment of the food is converted into blood, and thence into the solids of the body. Persons with digestion thus impaired having the slightest predisposition to pulmonary disease or if they take cold will be very liable to have Consumption of the Lungs in some of its forms, and I hold that it will be impossible to cure any case of Consumption without first restoring a good digestion and healthy assimilation. The very first thing to be done is to cleanse the stomach and bowels from all diseased mucus and slime which is clogging these organs so that they cannot perform their functions and then rouse up and restore the liver to a healthy action. For this purpose the surest and best remedy is Schenck's Mandrake Pills. These Pills cleanse the stomach and bowels of all the dead and morbid slime that is causing disease and decay in the whole system. They will clear out the liver of all diseased bile that has accumulated there and arouse it up to a new and healthy action by which natural and healthy bile is secreted.

The stomach bowels and liver are thus cleansed by the use of Schenck's Mandrake Pills; but there remains in the stomach an excess of acid, the organ is torpid, and the appetite is poor. In the bowels the lacteals are weak and requiring strength and support. It is in a condition like this that Schenck's Seaweed Tonic proves to be the most valuable remedy ever discovered. It is alkaline and its use will neutralize all excess of acid making the stomach sweet and fresh. It will give permanent tone to this important organ and create a good hearty appetite, and prepare the system for the first process of a good digestion and ultimately make good healthy living blood. After this preparatory treatment what remains to cure most cases of consumption is the free and persevering use of Schenck's Pulmonic Syrup. The Pulmonic Syrup nourishes the system, purifies the blood and is readily absorbed into the circulation, and thence distributed to the diseased lungs. There it ripens all morbid matters, whether in the form of abscesses or tubercles, and then assists Nature to expel all the diseased matter in the form of free expectoration, when once it ripens. It is then by the great healing and purifying properties of Schenck's Pulmonic Syrup that all ulcers and cavities are healed up sound, and my patient is cured.

The essential thing to be done in curing Consumption is to get up a good appetite and a good digestion, so that the body will grow in flesh and get strong. If a person has diseased lungs a cavity or abscess there the cavity cannot heal, the matter cannot ripen, so long as the system is below par. What is necessary to cure is a new order of things a good appetite, a good nutrition the body to grow in flesh and get fat; then Nature is helped, the cavities will heal, the matter will ripen and be thrown off in large quantities and the person regain health and strength. This is the true and only plan to cure Consumption and if a person is very bad, if the lungs are not entirely destroyed, or even if one lung is entirely gone, if there is enough vitality left in the other to heal up there is hope.

I have seen many persons cured with only one sound lung live and enjoy life to a good old age. This is what Schenck's medicines will do to cure Consumption. They will clean out the stomach, sweeten and strengthen it, get up a good digestion and give nature the assistance she needs to clear the system of all the disease that is in the lungs whatever the form may be.

It is important that while using Schenck's medicines care should be exercised not to take cold; keep in-doors in cool and damp weather, avoid night air and take out-door exercise only in a genial and warm sunshine.

I wish it distinctly understood that when I recommend a patient to be careful in regard to taking cold while using my medicines I do so for a special reason. A man who has but partially recovered from the effects of a bad cold is far more liable to a relapse than one who has been entirely cured and it is precisely the same in regard to consumption. So long as the lungs are not perfectly healed just so long is there imminent danger of a full return of the disease. Hence it is that I so strenuously caution pulmonary patients against exposing themselves to an atmosphere that is not genial and pleasant. Confirmed consumptives lungs are a mass of sores which the least change of atmosphere will inflame. The grand secret of my success with my medicines consists in my ability to subdue inflammation instead of provoking it as many of the faculty do. An inflamed lung cannot with safety to the patient be exposed to the biting blasts of winter or the chilling winds of spring or autumn. It should be carefully shielded from all irritating influences. The utmost caution should be observed in this particular as without it a cure under almost any circumstances is an impossibility.

The person should be kept on a wholesome and nutritious diet and all the medicines continued until the body has restored to it the natural quantity of flesh and strength.

I was myself cured by this treatment of the worst kind of Consumption and have lived to get fat and hearty these many years, with one lung mostly gone. I have cured thousands since, and very many have been cured by this treatment whom I have never seen.

About the first of October I expect to take possession of my new building at the north east corner of Sixth and Arch streets where I shall be pleased to give advice to all who may require it.

Full directions accompany all my remedies so that a person in any part of the world can be readily cured by a strict observance of the same.

HANDSOME MAJORITIES THROUGHOUT!

FULLER RETURNS—SWEEPING REPUBLICAN GAINS—COUNCIL, SENATE AND HOUSE STRONGLY REPUBLICAN

CONCORD, N H., March 13—3 [illegible] A M—One hundred and eighty three towns give Straw 33,889; Weston 31,180; Blackmer 373, and Cooper 191. If the balance of the State, [illegible] towns, should vote as last year, the result will be as follows: Straw 38,490, Weston 36,215, Blackmer and Cooper 987, giving Straw a majority of 1,288.

The first four Councillor districts have one Republican and the 5th Democratic.

The 1st, 2d, 3d, 4th, 5th, 7th, 9th and 10th Senatorial districts are Republican and the 6th, 8th and 12th Democratic, with the 11th doubtful. Rockingham, Cheshire, Strafford, Hillsboro' and Sullivan are Republican, and Merrimack, Belknap, Carroll and Coos, Democratic.

The House of Representatives will have a majority of at least 10 Republicans.

FURTHER RETURNS—THE GENERAL RESULT

Later—204 towns give Straw 36,799, Weston 34,310, Blackmer 393, Cooper and Scott [illegible]. A majority for Straw of 1,685, which will be reduced below 1,500 by the remaining towns. The 11th Senatorial district is Democratic.

REPUBLICAN JOLLIFICATION

NASHUA, March 13. The Republicans are holding a grand jollification to-night. Bonfires, music, speeches, &c., are being furnished to an immense crowd.

MANCHESTER, March 13. Several hundred citizens of Concord, headed by the Concord Cornet Band, came down on an extra train this evening to join the Republicans of Manchester in celebrating the election of Hon E. A. Straw, as Governor of New Hampshire. They were met at the depot by a large procession bearing torches and wisps of straw, and escorted to Music Hall amidst the booming of cannon and a brilliant display of fireworks.

SERIOUS ACCIDENT

LITTLETON, N H., March 13. Frank Abbott, Chauncey Miner and W Renfrew, were seriously injured by an explosion of powder while firing a salute in honor of the election last evening. All of the windows in the front end of Thayer's Hotel were blown in at the same time.

He [illegible] after a margin had [illegible] were not consummated, it appearing that the arms were not of such a [illegible] for other reasons—[illegible] that Remington was agent of the French Government that fact was not considered material enough to cancel the arrangement with them, witness said that was for states to answer, but the Government should be held to contracts the same as private parties.

THE RULE OF SALE.

When an officer was authorized to sell he [illegible] and a letter sent to that effect [illegible] party proposing to buy. The [illegible] was considered closed so far as the Ordnance Office was concerned, and then [illegible] and the other party closed the [illegible]. He, however, mentioned a case in which Major Crispin did not conclude a contract and thus saved a large sum of money to the Government. He thought that the fact [illegible] appear that Crispin was authorized to [illegible] did not do so because he could get higher prices. The matter had no reference to particular individuals but was a general [illegible] to anybody.

[illegible] OF ARMS AMPLE

[illegible] to a question by Senator Ames, he [illegible] there was no apprehension whatever [illegible] a little city there would not be [illegible] to arm troops. According [illegible] statement made within two [illegible] weeks, there are now on hand 335,[illegible] Springfield rifles, calibre 58 and [illegible] an army of 450,000 [illegible] supplied at the end of 30 days [illegible] could be turned out per [illegible] Besides our own facilities, private [illegible] supply large numbers of arms [illegible] Troops must be got to [illegible] armed, and they could be armed [illegible] great many guns [illegible] home by soldiers after the late [illegible] not estimate the number.

[illegible] SUPPLIES

[illegible] as to the number of guns on [illegible] into his estimate the [illegible] in the hands of the regular army, [illegible] Mr Ames asked whether it was [illegible] of the witness that Gen Grant, [illegible] the head of an army thus armed, would be [illegible] to resist an [illegible] brought against the Government. Witness replied affirmatively, whether to put down another rebellion or to resist foreign invasion. Propositions had [illegible] from Germany to sell the United States [illegible] stand of arms.

FORTS AND CANNON, RATHER THAN SMALL ARMS

Our alarm, if any would come from Europe [illegible] danger would be from iron-clads, as [illegible] forts are not properly armed. The cannon we require are of immense size and calibre, weighing 50,000 pounds, the ten inch being the smallest. Military men have not the slightest alarm about a deficiency of small arms. Congress has not taken proper action in regard to fortifications; it ought to make an appropriation of $1,000,000 annually for experiments and purchasing heavy ordnance for forts.

ABILITY TO EQUIP AN ARMY

Senator Carpenter asked whether we could not supply an army fast as men could be got together organized and put into the field and would they not be well armed from the start as the average of men were during the late war. Witness answered in the affirmative, adding: "And much better."

The committee adjourned until to-morrow.

MASSACHUSETTS

MARINE DISASTERS

BOSTON, March 13. Schooner S. P. M. Tasker, from Philadelphia for Boston, with coal, went ashore last evening on Peaked Hill bars, and will be a total loss. Crew saved.

Schooner Adelia Kelley of Harwich Mass, from Baltimore for Plymouth, is ashore near South Wellfleet. All hands lost except one man. The vessel is high up on the beach.

Italian barque Gaeta from Boston for Cadiz, with staves, went ashore in the snow storm about five miles north of Chatham Light, Cape Cod, on Tuesday, and became a total wreck. The cargo is strewn along the beach. All hands saved except one seaman, named Peter Antino who was lost. Capt Carson and most of the crew were badly frozen.

MONUMENT TO GOV ANDREW

Several prominent Massachusetts volunteer officers in the late war have initiated an organization to be called the "John A. Andrew Monument Association" for the purpose of raising funds for a monument over his grave at Hingham.

POLITICAL RUMORS

THE DISAFFECTED SENATORS—PENNSYLVANIA AND THE VICE PRESIDENCY

NEW YORK, March 13. A Washington dispatch states that disaffected Republicans yesterday decided to send one of their number to Cincinnati to confer with others at the Convention. It is said that Sumner, Trumbull, Fenton, Schurz and Tipton have conferred and agreed not to support Grant if nominated at Philadelphia. Sumner is understood to favor Judge Davis.

Another dispatch states that a combination is now forming to run Senator Scott for Vice President instead of Colfax or Wilson, in order to make a vacancy in the Pennsylvania Senatorship for Forney.

FORTY-SECOND CONGRESS—SECOND SESSION

WASHINGTON, March 13.

SENATE.

A bill extending the provisions of the act for the removal of cases from the State to Federal courts in cases in which aliens are plaintiffs or defendants was passed. A bill was passed authorizing the survey and marking the boundary line between the United States and British possessions from the Lake of the Woods to the summit of the Rocky Mountains.

Mr Conkling called up his resolution asking the President to communicate to the Senate the number of recommendations for office made by Senators from N. Y., Ill., Mo., and Nebraska, and proposed to add the following:—And whether appointments or removals have in any instance been made at the suggestion or request of any third party who has acted as a go-between between either of said Senators and the appointing power, or represented or in any manner caused it to be understood that such appointments or rewards would be agreeable to or were desired by any Senator, and if so, giving the names of the persons who so represented or caused it to be so understood, and particularly whether any such appointments or rewards had been made at the request or suggestion of Roswell Hart, Assistant Superintendent of the Mail Service in New York, or of Dr. Laflin, Naval Officer, or of A B Cornell, Surveyor, of New York, they or either of them professing to represent any such Senators, also whether any such Senators made application in reference to contracts to be awarded to the lowest bidder, and if so, the name of such Senator and at whose suggestion the application was made.

Mr Conkling said he would not have ventured to use the names of the gentlemen named in the resolution, but they themselves wished to have the inquiry made. He moved to postpone the appropriation bill which was in regular order, for the purpose of passing his resolution.

The resolution was debated till 1 30 P. M., when he withdrew the motion to postpone and announced that he would press the resolution again to-morrow. The Senate then resumed the appropriation bill.

In the course of discussion Mr Fenton said he would vote for Tipton's amendment extending the scope of the inquiry, and also for the amendment proposed by Mr Conkling, and he thought it proper that the resolution should pass, especially as his colleague deemed it necessary for his own vindication.

Mr Wilson thought the Senate had better drop the whole matter. What if the press had said hard things about members? Had not Senators said such things of each other? The press of this country was free, and boast [illegible] its freedom, and he liked it; but the people were just as free as the press, and could believe or reject what they pleased. He had recently seen in a very able newspaper, which he had read for years, a statement that the Senate was not exactly the Forty Thieves, but that there were twenty thieves too many in it now. He had served with a great many Senators, and out of them all he could not pick out twenty or half of that number who had done anything dishonorable in money matters or anything of that kind. These statements were often made rashly, but the people were not deceived by them, and his advice to Mr Conkling was to drop this matter and let the Senate go to work and redeem itself from the criticisms of the thoughtful, sober and reflecting people of the country, who were already disgusted at the waste of time.

Mr Conkling said that Mr Wilson's remarks were always good hearted and sensible, but announced that he would press the resolution to a vote to-morrow, or as soon as possible, and that if it should not be agreed to by the Senate he would feel justified in using other means to get the desired information. The bill went over and the Senate resumed the consideration of the appropriation bill, the question being on the amendment increasing the salary of the disbursing surgeon of the Marine Hospital to $5000.

Several amendments were offered and a number were ruled out of order.

Mr. Sawyer reviewed the amendment increasing the appropriation for the bureau of education. Agreed to, 25 to 16.

Mr Trumbull offered an amendment increasing the salaries of the Judges of the Court of Claims to $5000, which was pending when the Senate adjourned.

HOUSE

A bill was passed prohibiting the enlistment of minors.

Mr Butler of Mass., from the Judiciary Committee, reported a bill for the removal of certain causes to the U. S. Supreme Court, authorizing the removal from the State Courts to the U. S. Circuit Court of suits brought by non-residents of such a State or of an alien against another non resident of a State where jurisdiction by a State Court is obtained by personal service of process only.

After a long and technical discussion the bill was recommitted, and the House went into Committee of the Whole, Mr. Wheelan in the Chair, on the Post-office Appropriation bill, the pending question being an amendment increasing the subsidy to the Pacific mail steamship company for its China line from $500,000 to $1,000,000 a year, and making the service fortnightly instead of monthly.

Mr. Coburn of Ind, who opposed the amendment, offered one reducing the subsidy to $500,000, allowing the company to purchase four iron steamships abroad to be registered in the United States.

Mr Pomeroy advocated and Mr Crebs opposed the original amendment.

Mr Farnsworth of Ill offered a substitute reducing the subsidy to half a million provided the company perform the service semi-annually and may perform it in ships of foreign construction.

Messrs. Conger and Sargent opposed the substitute.

Messrs. Hereford and Morgan opposed an increased subsidy. The latter referred to the statement to him by Collins when he got his first subsidy of $300,000, that it cost him more than that to get it. He would not charge corrupt practices on members, but they all knew the lobbies were packed with plunderers. The scheme was not Republican, it was not Democratic, but would not the country believe it was a scheme of plunder devoid of shame. He denounced it as a conspiracy against the treasury and against the people.

Mr. Brooks of New York replied to Mr. Morgan, and reminded him of the great men of both parties who had voted for the Collins subsidy. He asked him whether he dared insinuate corrupt motives against Clay, Webster and Crittenden.

Mr. Morgan (loudly and excitedly)—I dare to do anything that is right, I dare to say that this scheme is a scheme of plunder, that it lamts the air. The gentleman can make the most of my remarks.

The debate was continued by Buchard and Peck against, and Potter and Dawes in favor of increased subsidy.

Mr Butler of Mass. also opposed an increase, and in reply to a remark previously made by Mr Conger, denied that he ever voted for a bounty to fishermen, and said he never even wanted to vote for it if the fishermen were not to be sold to Great Britain.—He referred to the fact that the President's recommendation to buy ships abroad had been opposed by Messrs Brooks and Dawes.

Mr Kelley remarked that the adoption of the President's recommendation would have been the burial of American ship yards.

Mr. Butler did not see that it had been resurrected since he had not seen any ship yards started since.

Mr Kelley—I have, there are to-day 20 iron steamships building on the Delaware river.

Mr. Butler said in conclusion that in this matter of American shipping they should do as their fathers did, establish differential duties in favor of American ships.

The discussion was further carried on by Messrs. Speer of Pa, Wood, Keer and Bird against an increased subsidy and by Messrs. Bingham, Kelley Hale in its favor.

Without disposing of any of the pending amendments the committee rose and the House adjourned.

FROM ALBANY

THE ERIE BILL.

ALBANY, N Y, March 13. The Erie bill was passed to a third reading by the Senate to-day. A section was amended to restrict the repeal of the Classification Act to the Erie road. The second section was amended by striking out the Chief Justice as the person who should appoint inspectors of election and giving that power to the Governor, Attorney General and Comptroller, providing that all proxies properly authorized by law shall be good, thus preventing the passage of any by-law prescribing a particular form for proxies, and the directors must be residents and citizens of the United States.

THE OIL RAILROAD WAR—ANTI-MONOPOLY MOVEMENT—NEW ROUTES PROPOSED.

TITUSVILLE, Pa., March 12. At a railroad meeting here to-day, a committee was appointed to look into the matter of building a railroad to Buffalo and also one to Erie. A delegation numbering 100 were present from Buffalo, including Mayor Brush, who was authorized to pledge $1,000,000 toward the road over their route. Fifty delegates were present from Erie, among them ex Senator Lomez, who on behalf of Erie pledged their city to build one half of the road to Erie. A Jamestown delegation of 20 were present. The meeting was enthusiastic and the people appeared determined to place themselves beyond the reach of the gigantic monopoly known as the Southern Improvement Co. Charters will be obtained and books opened for subscription to the stock of the road to Buffalo and Erie. The agents of Commodore Vanderbilt and Tom Scott, who have been here with the view of a compromise or conciliation, have been unsuccessful. A free pipe bill passed both Houses to-day and has become a law, which causes great rejoicing among the anti-monopolists and which will enable them immediately to build pipe lines to Erie and Pittsburg, giving them the advantages of exportation of petroleum to Europe.

KENTUCKY

REPUBLICAN CONVENTION

LOUISVILLE, Ky, March 13. The Republican State Convention met to-day. A resolution declaring no delegate entitled to a seat unless he agreed to support the nominee of the Philadelphia Convention, whoever he may be, was adopted by an overwhelming majority.

W Harlan of Louisville was elected permanent Chairman, and J. S Scott of Frankfort, Secretary. Hon. Walter Evans, of Christian county, and Hon J Eno. of Knox, were chosen delegates at large to the National Convention.

Resolutions were adopted endorsing the National Administration, instructing delegates to vote for Grant's renomination, and presenting the name of Gen. John M. Carlow for Vice President.

LOCAL AND OTHER ITEMS

—Clear, pleasant, and not too cold for comfort yesterday.

—The water-haulers are not so busy as they were last week.

—Smelts were selling in New York at 20 cents per pound, at last accounts. Bad for the smelts.

—It is expected that the ice blockade on E & N. A. Railway will be broken and the trains run through to-day.

—We are indebted to Mr. Henry McLaughlin for a copy of the last report of the Chicago Relief and Aid Society.

—Mr. T. H. Howard, one of the conductors of the Maine Central Railroad, was presented by his friends Monday evening with a valuable diamond ring.

—Reports from down river last night state that the Katahdin is still in the ice near Orphan Island, together with the tug that went to her assistance.

—A snow-plow attached to the B & P down train yesterday, jumped the track, broke its coupling, and shot off into the woods, while the train went on all right.

—The steamer "Union" was taken to the corner of Franklin and Hammond streets yesterday afternoon to pump the water from the cellar of Elm block, flooded on Sunday by the bursting of a sewer.

—B. W. Hardy, esq., of Hampden received by express yesterday from the Ogdensburg (N. H.) stock farm, two full-blooded Berkshire pigs, the only swine of that breed in this part of the State, we are informed.

—Two youthful but ferocious bull pups fought for some time yesterday morning, in front of Exchange block to the delight of a of a large crowd, but a policeman's cane spoiled the fun.

—A copartnership has been formed by Hon S. E. Humphrey and F. H. Appleton, Esq., (son of Chief Justice Appleton,) Counsellors at Law, who will occupy the office No. 6 Strickland's block, formerly occupied by Judge Humphrey.

—The *Commercial* now reports that "terrible riot" it Tellas lake, not Union river, as it first stated. Of course it did not mean to Tellas tory which was incorrect about the matter, but we expect a man from the lake in a few days.

—Many of the friends of Mr. A. D. Harlow have refused to take back the money paid for tickets to the concerts which have been abandoned, saying that as they purchased to help him and he has incurred large expenses, he is welcome to what they have paid to go towards defraying the bills.

—A well known resident of Ward 1 got into his sleigh in Pickering Square yesterday and was much surprised to find his horse wouldn't go. An examination disclosed the fact that he had forgotten that he had some time before tied the animal. The crowd appreciated the joke.

—B. H. Beale Post No 12, of this city, will hold an encampment this evening to elect a Post Commander to succeed Captain E. T. Small, appointed Assistant Adjutant General on staff of Gen'l White, Department Commander. On Friday evening the Post holds a sociable.

—The reservoir in Schwartz's saw factory on Exchange-st. was filled with water from the stream yesterday afternoon, by one of the city steamers which was set on the lower bridge. A large number of horses were frightened half out of their wits by the puffing of the steamer, but no runaways occurred.

—A letter from a relative of Dr. Hebbard, the physiological lecturer, requests us to state that the attack which prostrated the latter during a lecture in Montreal, proved to be congestion of the brain (not softening of the brain, as at first reported,) and that he has fully recovered and resumed business.

MORRIS BROTHERS MINSTRELS. This popular troupe will appear at Norombega Hall on Wednesday evening of next week. Lon, Billy, and Charlie Morris, Sutton, Japanese Tommy and a score of other favorites are with the company and a good time may be expected. Tickets are for sale at Bugbee's.

QUINTETTE CLUB CONCERT. Tickets to the Quintette Club Concert are selling well, and there is no doubt that a large audience will go to hear "the Mendelssohns" and Mrs. Weston. The concert will be one of the finest of the season. The plan of the hall may be seen, and seats secured, at Duren's bookstore.

—A row which originated between two belligerent chaps on Pickering Square between 5 and 6 o clock last night, came near being a riot, as quite a number of other parties did not preserve a strict neutrality, and things looked Riley for a short time, but the police swooped down upon the crowd and conquered a peace.

REDUCTION IN THE PRICE OF GAS. At a meeting of the Directors of the Bangor Gas-Light Company, held on the 7th inst., a petition signed by a large number of citizens, asking for a reduction in the price of gas, was presented and referred to a committee consisting of Messrs. G. K. Jewett and Franklin Muzzy. Another meeting was held on Tuesday, at which the Committee reported as follows:—

To the Directors of the Bangor Gas Light Company:—GENTLEMEN,—Your committee to whom was referred the petition of O. M. Shaw and others for a reduction in the price of gas, have examined into the financial condition of the Company, and herewith report that we find that the Stockholders since its organization, have received only an average of eight per cent. per annum including one stock dividend of $10,000. In the mean time nothing has been appropriated from earnings, for insurance or for depreciation of the property, the most part of which will hereafter require heavy expenditures annually to keep in good working condition.

We estimate the expense of permanent repairs and improvements absolutely necessary to be made as soon as the spring opens, to be not less than $9000, which will absorb half of our accumulation of earnings on hand not divided, leaving a remainder insufficient for the summer purchase of yearly stock of coal. So far as we have been able to consult with the larger stockholders, they express themselves satisfied with eight per cent. per annum dividends, and it is not to be supposed that consumers would consider that income on the investment excessive.

Your Committee believe the works have been managed with as little waste as any other Gas Company of its size, and the charge to consumers has been lower than the average prices of other works in the country making similar quantities of gas per year. But in the hope of stimulating a larger consumption, and consequent reduction in the cost, your committee recommend trying the experiment of furnishing to consumers, gas on and after April 1st, 1872, at three dollars and fifty cents per thousand feet.

Respectfully submitted,

G. K. [illegible], } Com. of
FRANKLIN [illegible], } Directors.

THE ADJOURNED ELECTIONS—WARD 2 DOES THE HANDSOME THING. The adjourned elections in Wards 1 and 2 were held on Wednesday as announced. In Ward 2 the contest was over the election of two Councilmen, there being no choice in these cases on Monday, and our Republican friends made a most gallant and successful rally, electing both their candidates by twenty majority. When it is remembered that the Republicans in this Ward have hitherto had an adverse majority of 40 to 50 votes to overcome, it will be conceded that they deserve the highest credit for their energy and determination, in completely routing their opponents and electing their entire Republican ticket.

In Ward 1, the contest for one Councilman was decided in favor of G G Cushman, who was appointed independent of the nominations of either party. The returns are as follows:—

WARD 1

G. G. Cushman,	(Ind)	89
Peter Davis	(Dem)	61
Joseph Wharff		1

The town voted to exempt from taxation all unimproved water-power and the buildings and machinery that may be put upon the same, for ten years, commencing when the first machinery shall be put up.

Mattawamkeag elected Asa Smith, D S Parker and H W Fiske, Selectmen, Geo W Blakemore, Clerk, Asa Smith, Treasurer, D S Parker, Agent, Asa Smith, S. S. Committee.

A STORM IN THE FRENCH ASSEMBLY. In the National Assembly on Monday, a motion was introduced amid great excitement to censure and prosecute two deputies for libel on the chamber. A counter motion was made to pass to the order of the day. This, which is equivalent to laying the original motion on the table, was followed by a tumult unprecedented even in those halls, but it was finally declared adopted, whereupon the storm broke out afresh. A member of the right shouted that the passage to the order of the day is not an amnesty of impunity, but of disdain. The House became furious. Violent exclamations were exchanged by the right and left and the scene of confusion was painfully protracted. The accused deputies rose and refused to accept such a pardon as the action of the Assembly implied. They were received with a storm of groans. Jules Favre tried to speak, but his voice was inaudible in the uproar. The Prince of Wales happened to visit the Assembly during the sitting and witnessed the entire proceeding.

THE NORTHERN PACIFIC IN GREAT BRITAIN. The people of Great Britain find in the Northern Pacific Railway not only a profitable and desirable field for investment, but a powerful agency for the consolidation and development of their colonial possessions extending from Halifax to the Pacific Ocean, and for the maintenance of their trade with the Far East. Below are given brief extracts from recent articles in leading British journals, which indicate the cordial good will extended to the enterprise by the English Public.

The whole area of England and Scotland is about fifty seven million acres, and that of England, Scotland and Ireland is about seventy five millions, so that the territory given by the American Government to the Northern Pacific Railway Company exceeds that of Great Britain by three millions of acres less than the whole area of the United Kingdom. * * Our interest in this particular American enterprise arises from the circumstance that it appears to open up to us a portion of our own dominions which have hitherto been almost inaccessible. * * In short, from the Eastern to the Western terminus of the line the route of this road traverses a region most desirable for settlement and rich in resources, whose development will be almost as profitable to British as to American interests.—[London Morning Post.

Our American cousins are given to acting while we are debating and planning. In the recent completion of the Northern Pacific Railway across the State of Minnesota, another stride has been taken in that path which has for its goal the rendering accessible to industry and civilization every available portion of the globe. What has already been accomplished in the completion of the Minnesota Division of the Northern Pacific Road is of immense importance in furnishing access to and an outlet for Manitoba and our other British provinces in the Northwest.— * * This great work has commenced under the most favorable auspices—not alone in a commercial but in an international sense. If by the time the construction train of the Northern Pacific is echoing along the rich valleys of Montana, a branch line in a northerly direction shall not have been projected to tap direct the fertile British American provinces of the Saskatchewan, we shall be disappointed in our estimate of the enterprise of those at the helm of this great project.—[London Morning Advertiser.

The importance of the Northern Pacific line has been acknowledged by the United States Government by endowing the company with the largest Land Grant ever made for any public work in the United States. * * The value of the property possessed by the Company is undoubted, and the bonds will, we have every reason to believe, become a favorite source of investment not only in the United States, but on this side of the Atlantic, where (despite one or two exceptions) American Railway securities are rapidly growing in public estimation.

We may add that a glance at the names of the Directors of the Northern Pacific Company shows that the management is in the hands of gentlemen of well known standing, many of whom have had great experience in connection with other important lines.—[Railway Gazette, London.

* * The importance of the Northern Pacific Road, or the value of the security it offers can scarcely be overrated, and as such we commend its First Mortgage Bonds to the consideration of any of our readers who are seeking first-class investments or contemplating a settlement on the other side of the Atlantic, the bonds being available to pay for lands of the Company at $1.10 United States currency.—[Liverpool Journal of Commerce.

Much of the territory which the Northern Pacific route traverses is of unsurpassed fertility. The soil and climate are alike favorable to the farmer, for whom the tillage ceases to be profitable the land is available for grazing. * * And here the fact should not be lost sight of, that by its connection at one end with the Canadian lines and by its proximity to British Columbia at the other, it will [illegible] and commercial advantages to [illegible] and [illegible] every day [illegible] closely allied in feeling and aspirations with our cousins in America.—[Nottinghamshire (Eng.) Guardian.

In whatever way the Northern Pacific Railroad is regarded, whether as to executive management, route, resources, or business it is a great enterprise of universal interest.—The northern portion of the American Continent is rapidly becoming the bond of union between the trade of Asia and of Europe. Its railways and especially the Northern Pacific Railway will naturally command a great through traffic, and the local business will increase year by year with the development of the country. The line passes through one of the best wheat-growing regions in the world, and though districts teeming with many kinds of mineral wealth. These are the elements that attract population and population implies industry by which wealth is accumulated and distributed.—[Money Market Review, London.

Evidence is afforded that the local traffic will be enormous. Beyond Dakota the route lies through Montana, three times the size of the Empire State of New York, with land of unsurpassed fertility, unequalled for grazing purposes, and with large deposits of gold, silver, copper and coal—features which, with its pure and salubrious atmosphere and dry climate, are sure to draw to it an immense population. * "With the extension of the line to Puget Sound, goods will be conveyed between Liverpool and Yokohama in 13 days less time than by the Suez Canal. Thus, independently of colonial interests, Great Britain, which can afford to neglect nothing that will end in maintaining her ascendency in the Far East Trade, has an immense stake in completion of the Northern Pacific Road.—[Herepath's Railway Journal, London.

HAVE YOU SEEN HER?—A lady who for the last five years has been a leader of fashion in New York, and who may be seen twice a week in her elegant caleche driving a pair of superb ponies in Central Park, has recently stated, in the select circle to which she belongs, that the only article in existence which imparts beauty and lustre to the complexion without ultimately impairing the texture of the skin and causing it to collapse and wrinkle, is HAGAN'S MAGNOLIA BALM. The name of the distinguished member of the beau monde who made this declaration cannot with propriety be given, but it may be mentioned *en passant* that she has spent several years of her life in Europe and is familiar with all the arts and preparations employed by the court beauties of the old world to enhance their charms.

Those skeptical of the virtues of SMOLANDER'S BUCHU for the positive cure of kidney, bladder and glandular diseases, mental and physical debility, loss of vigor, diabetes, gravel, lack of nervous energy, female complaints and maladies of the urino genital organs, incontinence and retention of urine, have but to administer a few doses of this valuable vegetable medicine and their doubts will vanish.

"I was persuaded to go to another house the last time I was at Rockland," said a traveller the other day to a friend, "but in future I shall patronize the Lynde Hotel. Every thing there is new, neat, and pleasant."

THE BALLAD OF CARMILHAN"

The Atlantic Monthly for April opens with a no-bio narrative poem by Longfellow of absolutely han dred lines called the Ballad of Carmilhan" The Carmilhan is a spectre ship to meet which on the high seas is to foretell certain shipwreck and death.— The captain of the Valdemar expresses scorn of the superstition.

And then he swore a dreadful oath
He swore by the Kingdom Three,
That should he meet the Carmilhan
He would run her down although he ran
Right into Eternity

The description of the storm is in Longfellow's best manner —

And now along the horizon's edge
Mountains of cloud uprose
Black as night rocks underneath
Above their sharp and jagged teeth
Were white as driftod snows

Unseen behind them sank the sun
But flushed each snowy peak
A little while with crimson light
That faded slowly from the sight
As blushes from the cheek

Black grew the sky all black all black
The clouds were every where
There was a feeling of suspense
In nature, a mysterious sense
Of terror in the air

And all on board the Valdemar
Was still as still could be,
Save when the dismal ship bell tolled
As ever and anon it rolled
And startled all the sea

Eight bells! and suddenly aloft,
With a great rush of rain
Mashing the ocean white with spume
In darkness like the day of doom,
On came the hurricane

The lightning flashed from cloud to cloud
And turned to dark as night,
A jagged flame, a single bar
Of white fire like a bayonet
That pierced his eyeballs through

STEAM PLOUGHING

It is a rather singular fact that all attempts at 'steam culture' in this country have so far proved to be failures in this respect, progressive though we are as a nation in other matters, we have been a little behind many European countries Yet in the cultivation of large tracts of land steam ploughing is undoubtedly more efficient as well as more economical than the present system Our neighbors across the water the French are in England several different establishments employing over twelve hundred men each in the manufacture of steam ploughs The plan found to work the best, in Great Britain is to have organized companies who hire out their steam machines and do the work by contract, and it is said that more than five hundred steam ploughs are thus held for hire The success of the experiment is proved by its working on a tract of five hundred acres near London This land, it is said, was such that it would not bring a rent of three dollars per acre, but after being ploughed by steam it brought a clear profit of $15,000 on grain crops Scotland finds no difficulty in making steam ploughing pay In Germany the same mechanical force meets with general approval while further in the East the Pashla of Egypt employs four hundred of these ploughs

Wood shuttles seem to have attended all efforts to make steam ploughing a success in this country—the nature of the machines themselves and the lack of any organization to put them in operation As to the first difficulty, the machines have been too cumbersome and too expensive. The plan of having stationary engines, drawing the plough by means of cables, had a fair trial, but for many reasons was abandoned as impracticable on a large scale, and too complicated for small farms Then an engine drawing a dozen ploughs was exhibited, but met with no favor, as the cost of one such machine was very great, and disproportionate to the results attained. Of course steam ploughing is most needed on the prairies of our western states, where the soil is level and fertile, and here is where the second difficulty comes in, the necessity for some regularly organized company to introduce the engines. Take a new colony for instance. If its members combine one of these machines can be easily purchased, and will do more work in a single day than all the men together. Thus the laborers would have time to perfect the other details incident to the establishment and permanent location of a settlement. Some such system will doubtless soon take the place of the independent work of each laborer

SCULPTORS AND SCULPTURE—A correspondent in Italy gives the following facts about sculpture

"How many there are who still think that the statue which they see and admire in its harmonious perfection is the product of the 'artist's chisel—as the phrase is—whose name the statue bears' We hear constantly that such a sculptor 'finishes perfectly,' when his hand has had nothing to do with the work after the clay model was finished— Only his eye and directing mind have followed the process, with that sense of responsibility demanded by reputation already gained or yet to be won Ball and Connolly have $750 or a year each as their bonus, the price demanded by Powers is $1000 All but $100, the price paid for the piece of marble and the work, is the profit which goes to the sculptor for his clay model which costs him the labor of a week or ten days The beautiful ideal of 'Proserpine' by Powers, which has been repeated well toward a hundred times, and which is always under the hands of the workmen, is sold for $400 or $500 The cost of making it is about $50. An ideal statue, sold for $4000 or $5000, costs the artist for marble and work, $1 00 As soon as the clay model has passed from his hands, to be manipulated upon in marble the artist is free to begin a new design

75,000 Acres
OF GOOD
Timber Land,
For Sale at a Low Rate,

Situated on Moose River, in the town of Grey, Lewis County, New York.

Said timber consists sting of White Hemlock, Spruce, Pine and Hardwood. The subscribers own two large tanneries, located on the aforesaid track, which will consume the hemlock bark, thus enabling the land and timber to be purchased at a comparatively cheap rate The timber is excellent in quality in all particulars The aforesaid tract of land is easy of access, being only from six to fifteen miles from both the Black River R. R. and Black River Canal, which lead direct to the Albany Market. The land is comparatively level, well watered and good for farming purposes Moose River, which extends through the tract, is a large stream and empties into Black River, where the aforesaid Canal leads into Black River At this point or junction of the rivers, is a fall of sixty (60) feet, over which the waters of both rivers flow, thus forming an unlimited water power, two miles and a half in the canal and at the Depot,) to which Moose River will carry the immense amount of timber from the aforesaid lands

Any further desiring to manufacture lumber will do well to give this rare opportunity their attention. The land and timber can be purchased at a cheap rate or the timber sawed into lumber.

To the Honorable, the Justices of the Supreme Judicial Court, next to be holden at Bangor, within and for the County of Penobscot, on the first Tuesday of April, next

Respectfully represents Lizzie M Prescott of Bangor, in the County of Penobscot, that she was married on the 4th day of September, A D 1869, at Bangor, aforesaid, to John F Prescott, late of said Bangor, that since their intermarriage she has in all respects done her duty as a wife, but that said Prescott in his behavior has proved false to his vows into the marriage, that he lived with her only fifteen months, that during that time he was guilty of extreme cruelty for which cause he provided no means for her support, and that he then abandoned her entirely, and has never lived with her, provided for her support, or done any thing since, but has left this State and is now in parts unknown.

Where one she prays that a divorce may be granted her from the bonds of matrimony between herself and her said husband

New Testimonials.

Testimonial from Deacon Theodore B Perkins, formerly of the well known firm of Nason, Hamlin & Co., Augusta, Me, after using one 25 cent bottle of Adamson's Botanic Cough Balsam.

GLOUCESTER, Mass., Dec 26 1871.

F W. RICHMAN, Esq —My Dear Sir Excessive business calls alone prevented my sooner acknowledging the receipt of your very valuable favor, and I am now glad to say that your Adamson's Botanic Cough Balsam is the most efficacious preparation for coughs and colds it I have ever had in my family. At the time it was received I was suffering badly with Asthma attended with a dry, hard Cough, both of which left me immediately after taking the mixture. The latter has not returned. It has been several weeks.

We, the undersigned, having enjoyed for many years an intimate personal acquaintance with Deacon Theodore B. Perkins, would certify that his case of Asthma was as bad as any that has ever come under our notice, and that to our knowledge, on account of this illness he went to California, where he suffered about one year undergoing treatment for the disease

BOUTHAY, Dec. 29, 1871.

MR W F KINSMAN—Dear sir For the last 15 years I have been troubled with a cough; have spent one winter in Florida, taken about everything in the shape of patent medicines and doctors' prescriptions, and I can say that your Adamson's Botanic Balsam is the best thing I have found for a cough. I have been using it some three months, and am about well

Yours truly, S B YOUNG,
Formerly of Augusta.

AUGUSTA, Jan 23, 1872

MR KINSMAN I have been troubled with Asthma, attended with a Cough, ever since I was six years of age, have tried various remedies Commenced using Adamson's Botanic Cough Balsam some time in January, 1871, and it seemed to set like magic—using one at once I have not had both the cough since, and I think that it is the best remedy to be found for Asthma I have since recommended it to quite a number, and it has given good satisfaction

The New Year finds the LIGHTNING SAWS universally acknowledged to lead the American market No manufacturer of saws has dared to question or publicly test as the merits of this saw or make a claim to the matter of superiority of the latest improved Saws The $500 challenge for expanses of public contest is ingrossed on every saw

All teeth are cutters and simple as old V. All Saws warranted to Cut and Touch uninjured

In consequence of the large increase of the premises compelled lease of No 60 Beekman st., and arrangements for the manufacture of two thousand LIGHTNING CROSS CUTS per month, and hope to be able to fill all orders promptly

The supply has been unequal to the demand for the HIGH LIGHTNING BACK SAW, this Saw we will endeavor to keep a stock on hand The sale of several thousand dozen of the above-mentioned saws causes the belief that they are the best blades in the market All Lightning Saws are indelibly etched with my name, the Cross-Cuts with directions for filling, using, &c.

Each Lightning Saw will cut and touch ends unjointed in twenty thousand has proved imperfect, so thorough is the inspection of these saw goods, but, for the benefit of such unskilled men as cannot set and use a fifth Saw a gauge heavier (than regular 16) will be inserted to order Since enlargement of first space, one year ago, no complaint of clogging has been received The Lightning Saws are equally adapted for large and small timber, soft or hard wood, but soft timber requiring saws to be set wider Lightning Saws are all set and sharpened ready for use when sent out, are two gauges thinner on back

"THE GREATEST INCLUDES THE LESS"

Note extra steel and durability as contrasted with old V outlined on M to th. After wearing each out they may be recut, or sold to some admirer of the old V Cutting Saws, and by all odd Saws

This Saw differs from all the well-known cearlgtenth Saws in use The Lightning Tooth saw is beveled blades for cutting, while each tooth used by all other patent saws are dust removers merely, requiring to be sharpened, and are left full thickness of saw-plate, so they will do cutting The Lightning Saw is designed to cut timber by direct action both ways If a point of a tooth is cast off one way and one the other, the stand would take and fill out the tooth Most of the large Rivaro Jobbing Houses in Boston now handle no goods, as a matter of worthless infringements, for which I am seeking legal redress under Patents, Trade Mark, and Copyright

NEW YORK, AM INSTITUTE FAIR BUILDING, Nov 3, 1871

E M BOYNTON, 78 Beekman st, New York—Sir This certifies that I saw the Lightning Crosscut Saw, worked by hand, by two men, Nov 2 at this Fair Said saw was used on a sound six inch chestnut log in 34 seconds, and 36 cuts of same, conformingly in two minutes and 18 seconds, or at a rate of more than one minute per cut. I also measured the log and am satisfied that for all purposes of cross-cutting large and small timber your cross-cuts and wood saws have no rival in speed, in ease, and in simplicity

I believe their universal use would save a vast amount of money and time, and the same held of millions of men W. SLADE,
Superintendent and Engineer American Institute

N B These extreme tests are quoted in reply to prove what should be obvious—that direct cutting is better than the old V fricition process used by all other saws

Honest hardware men will procure the genuine for their customers, and not have their trade worked with inferior goods, and where they do not keep them, Agents are wanted A six foot Cross cut and Buck Saw sent on receipt of $5 Express will cost from 40 cents to $1 to please this side of the Mississippi River by special contract

N B Millions Axes saved this year for cutting wood, a Lightning Cross-Cut Saw, either for one man or two men, will cut five times as fast as an axe, and not try them? Also Lightning Ice Saws, 4 to 6 feet long, suitable for general use.

See that the name and trade mark on each saw.
